

**Resilience**

vs.

**Expanding**

MY FRIEND ONCE TOLD ME:

I HATE THE WORD

**RESILIENCE**

WHAT I UNDERSTOOD IS  
THAT WHEN YOU'RE  
"RESILIENT", THE IMPLICATION  
IS THAT YOU MOVE ON AND  
FORGET THE THINGS YOU GO  
THROUGH THAT YOU CAN...

**WITHSTAND  
AND  
RECOVER**

FROM DIFFICULT CONDITIONS.  
FOR SOME OF US, YOU DON'T RECOVER,  
B/C THE "**DIFFICULT CONDITION**"  
NEVER LEAVES.

AS OPPOSED TO TRYING TO GET  
**RID OF IT.**

IT'S A **SUBTLE** CHANGE IN WORD  
CHOICE THAT  
ALLOWS YOU  
TO SEE PARTS  
OF YOURSELF  
W/ A SENSE  
OF NEUTRALITY

NOTHING  
**GOOD OR BAD**

YOU JUST MADE ROOM FOR A  
**PART OF YOU.**

YOU'VE  
**EXPANDED**

**MADE BY:** roddy rodriquez  
**INSPIRED BY:** a convo w/ my

friend Danna. (The use of expanding  
as a replacement for resilience might  
be someone elses idea. We aren't  
sure.)
